

CREE congratulates FEES

13 March 2014

Ernst A.P. Koningsveld Eur.Erg.
CREE-board

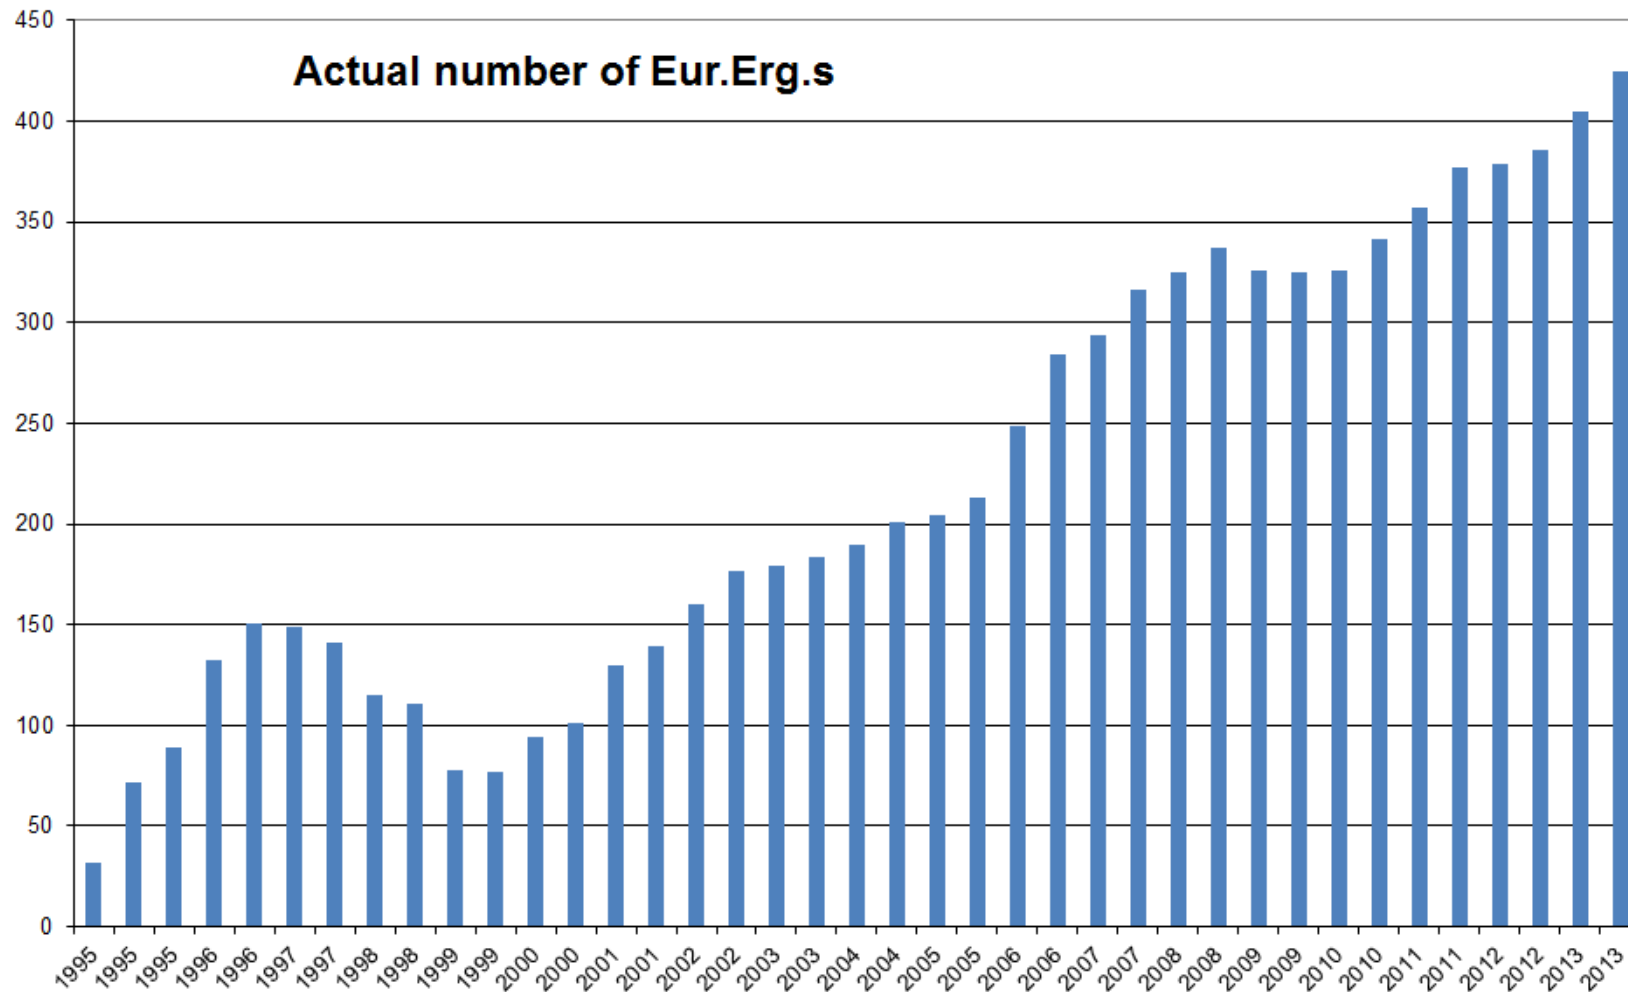

CREE

- Centre for Registration of European Ergonomists
- Started 1995
- Goals:
 - Promotion of our discipline
 - Enhancement of our professionalism
 - Acknowledgement of professionals
 - Promotion of permanent professional education

Recent CREE developments

- Growth in number of Eur.Erg.'s
- New website (per April 1st 2014)
- Assessment process improved

Development of # Eur.Erg.s

Applications

- 40-50 per council meeting, so 80-100 per year
- Of which 30% are new and 70% prolongations
- Drop out of some 20 Eur.Erg.'s per year, because of:
 - Change of job
 - Retirement

CENTRE FOR REGISTRATION OF EUROPEAN ERGONOMISTS

- Home

Promotion of ergonomics

- Collaboration with FEES
- Regarding the scale of CREE and FEES, the boards and councils can only do little
- So:
 - Primarily the Eur.Erg.'s are the ambassadors. It is their interest that registration gets more status and that the discipline gets a better reputation
 - The most convincing is:
Do your work as an excellent job!
Be proud and show it!

Actual topics

- Ergonomics \leftrightarrow Human Factors
or a combination
- The broadness of our discipline hampers the
correct understanding of what we do
- The quality of our work shall continuously improve

Collaboration for success

Thank you for your attention
