

**Memorandum Of Understanding
between
ESF
(European Safety Federation)
and
FEES
(Federation of the European Ergonomics Societies)**

ESF and FEES agree on common goals that are:

- To promote the ergonomic design and use of Personal Protective Equipment (PPE);
- To contribute to the feedback from the field on the quality and the real use of PPE;
- To promote the training of different actors in this field (users, distributors, prevention experts...);
- To include a mutual link on the websites with a short description of the objectives of the partner;
- To promote activities (such as conferences, seminars, workshop, promotional events...) organized by the other partner through their own information channels (website, newsletter...).
