First analysis on the situation of ergonomics in Europe

First analysis on the situation of ergonomics in Europe

First analysis on the situation of ergonomics in Europe

Eur. Erg adoption title rate by N.S.' membership in Europe - 2013

First analysis on the situation of

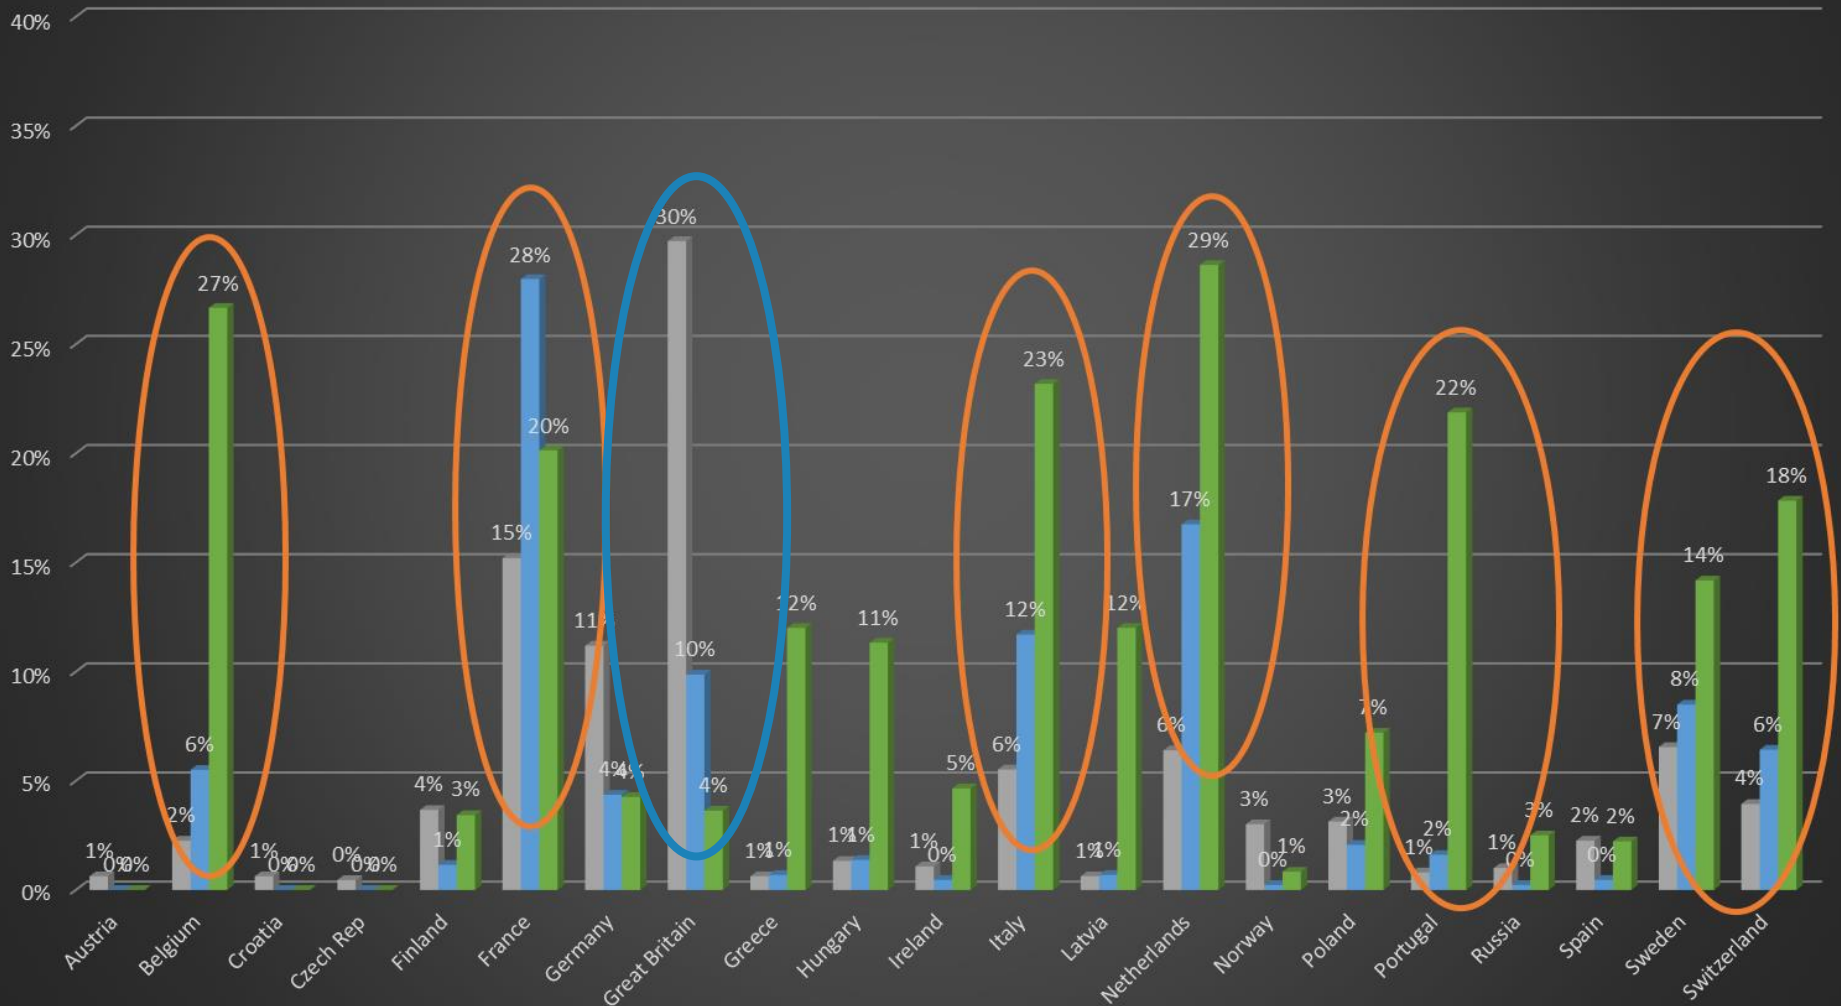

N.S. membership (grey), Eur. Erg (blue) & Adoption title (green) rate in Europe - 2014
 (calculated on total N.S. membership and total Eur. Erg)

First analysis on the situation of

N.S. membership (grey), Eur. Erg (blue) & Adoption title (green) rate in Europe - 2014

(calculated on total N.S. membership and total Eur. Erg)

First analysis on the situation of ergonomics in Europe

- * **What are the factors which could explain these differences?**
- * **What kind of actions, at European level, to encourage a beneficial development for Ergonomics and Ergonomists?**

Illustration of one practical value from Ergonomics

- * FEES' presentation to European Safety Conference
- * 200 participants from 23 countries (Belgium, 25 %; Germany, 17 %; Netherlands in third position, 8 %)
- * A variety of profiles; Manufacturers (73 %), Researchers in University or Technical Institute (8 %), Association-Federation-Trade (7 %), Procurer and Eu-bodies (5 %)
- * 25 individual presentation on various topics (technical aspects, 70 %; scientific aspects, 20 %; regulatory aspects, 10 %)

Illustration of one practical value from Ergonomics

* FEES' contribution:

- * Details about FEES, ergonomics and ergonomists in Europe
- * Feedback from field via studies conducted in farmer' sectors
- * Conclusion on the benefits from ergonomics to PPE development (Design, Integration, Acceptance)

* Keys issues:

- * Signing of a Memorandum of Understanding with the European Safety Federation
- * Submission an article to Enprotex magazine focused on Ergonomics standpoint on PPE
